Who's who

01

A greeting from the Governance of Politecnico di Milano...

Prof.ssa Donatella Sciuto

Rector of Politecnico di Milano.

She was elected in 2023 to lead Politecnico di Milano, the country's leading technical university, and is its only female rector since its foundation.

Prof. Lorenzo Dozio
Dean of the School of Industrial and Information Engineering.

He leads the School and ensures the coordination of the teaching activities of each Degree Programme.

...and from the Governance and contacts of the Cremona Territorial Campus

Prof. Luciano Baresi
Vice Rector

The Student Ombudsperson

Prof. Maria Vittoria Diamanti

Email: difensoredeglistudenti@polimi.it

Students who wish to file a **complaint** regarding conduct that **violates university regulations** and the **rights and duties of students** at POLIMI may contact the Student Ombudsperson.

The Student Ombudsperson acts following a **non-anonymous report**, carries out **a proper investigation into the matter** and tries to resolve it, **protecting the student** from any retaliation.

Student associations: CRES

Community
CRES

CRES is a student association of the Cremona Campus whose aim is to **build connections and community** through **student activities** accessible to everyone and to create educational value through **extracurricular activities**.

The **association side** aims to organize activities to experience Campus life beyond lectures: **parties, sports tournaments, trips** around Europe and much more.

The **educational side** aims to develop a **Junior Enterprise**: enabling students to develop extracurricular skills in contact with **experts and companies**. This initiative has led to **seminars** on current engineering topics, and later gave rise to the **SIT** (Students for Local Innovation) initiative.

The association has created a “**Welcome Guide**” that will soon be distributed to you in class!

Student associations: Polifonia

We are Polifonia, Politecnico's music association.
Originally founded in Milan, from last year also the Cremona branch has been established.

Each month we organize **multiple activities, events and collaborations** inside and outside the university.

Polifonia brings together both **players** and **music enjoyers**.
We wait for you to feel the music together, learn with us and have fun!

New Campus

02

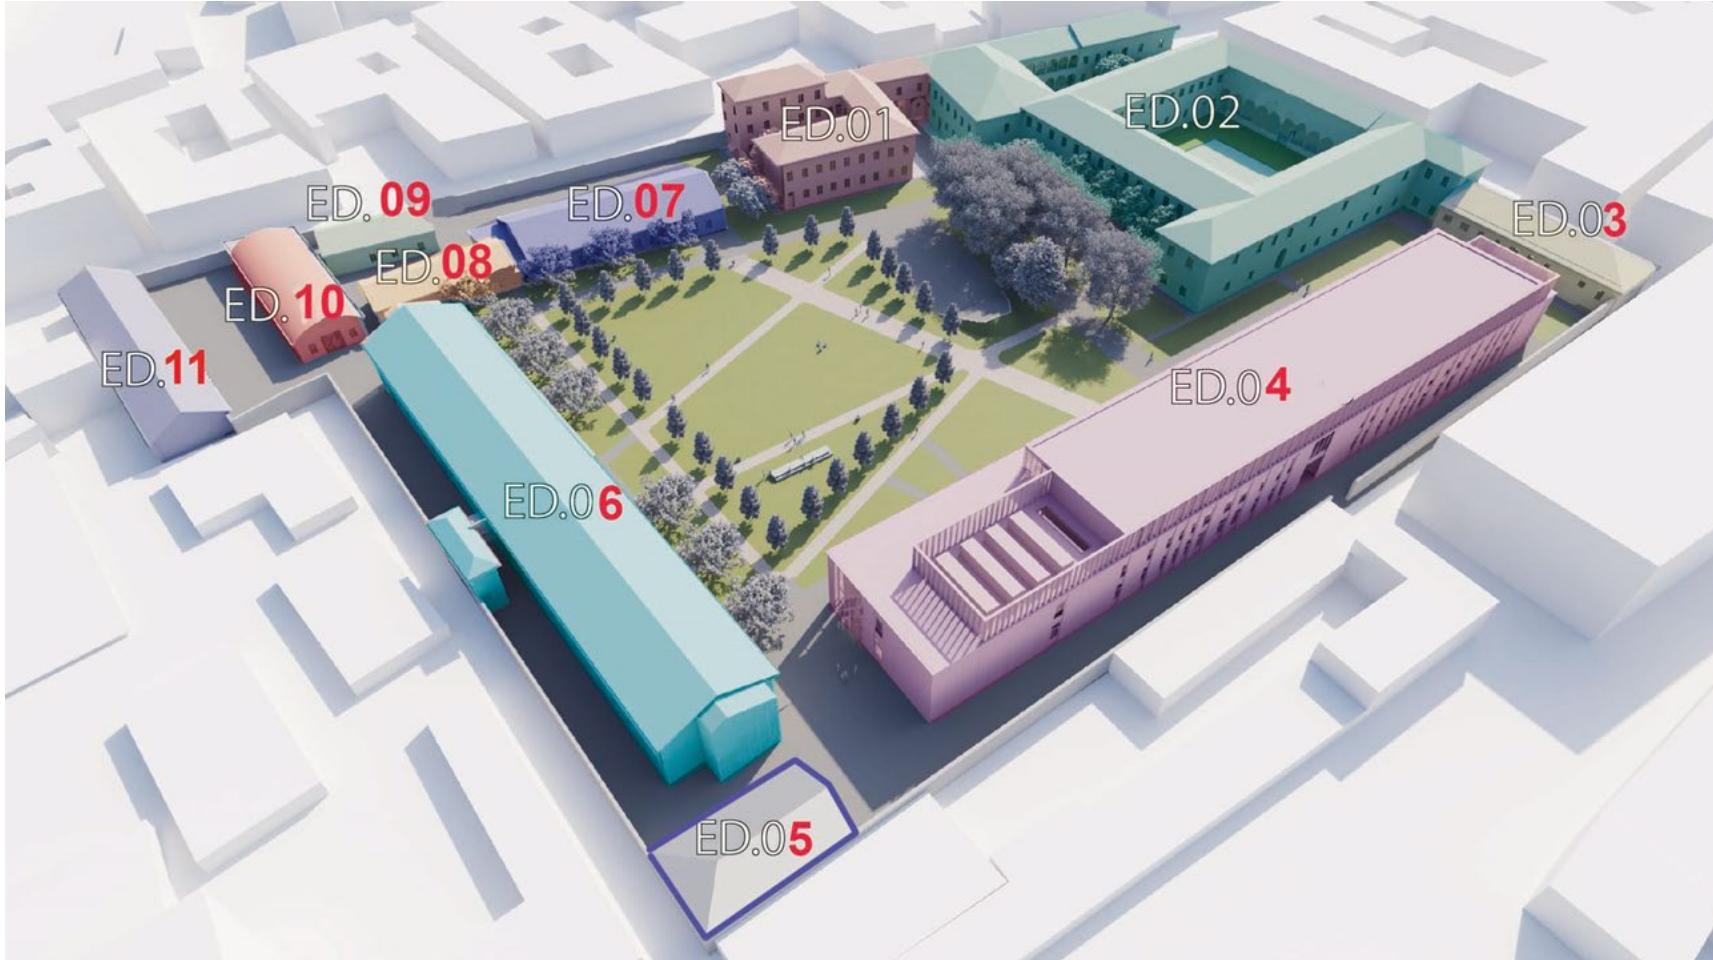

New “City of Cremona” Campus

The project stakeholders

A student-friendly Campus

It covers an area of approximately **30,000 m²** with 9,000 m² of green space available to students.

A student-friendly Campus

Offices

“Ada Byron” Residence

Teaching classrooms

“Maffezzoni” Lecture Hall

Library and study rooms

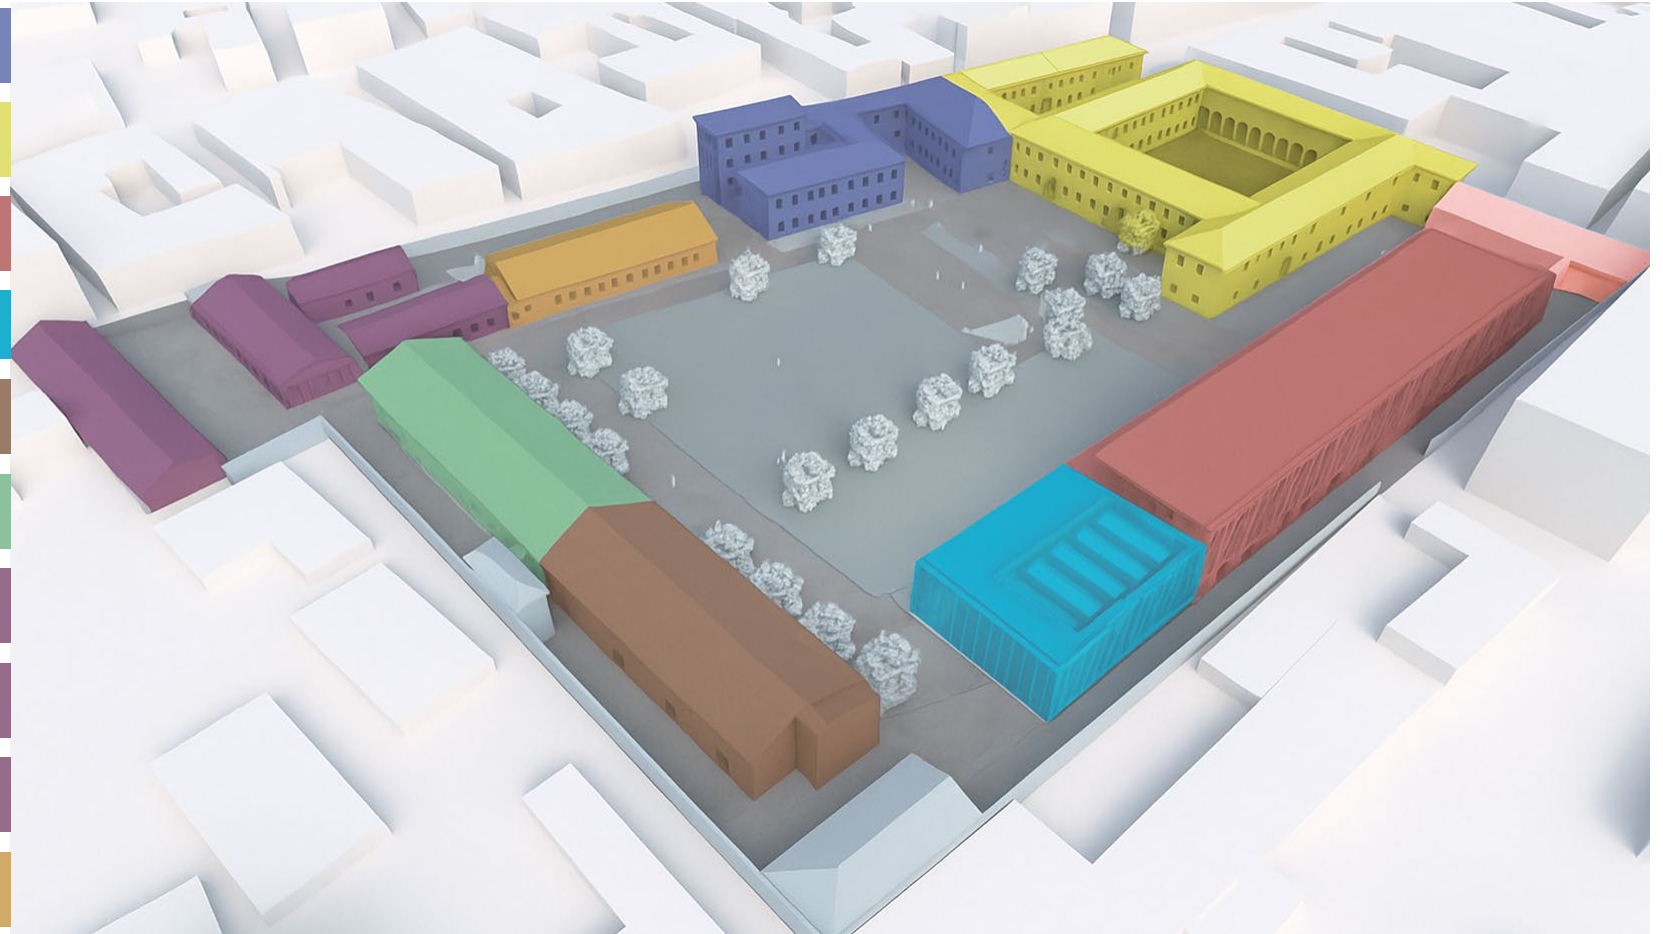

Computer Science Museum

FabElab (Rozzi Laboratory)

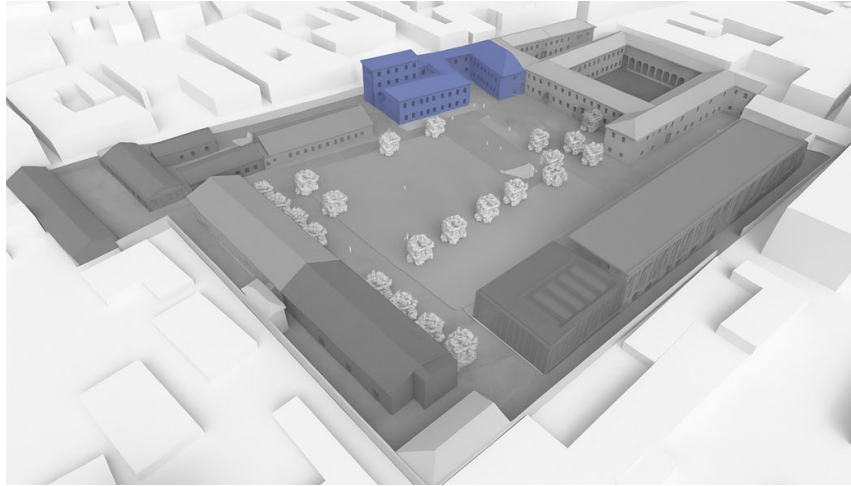

Musical Acoustics Laboratory

ROSOTEA Laboratory

Area break

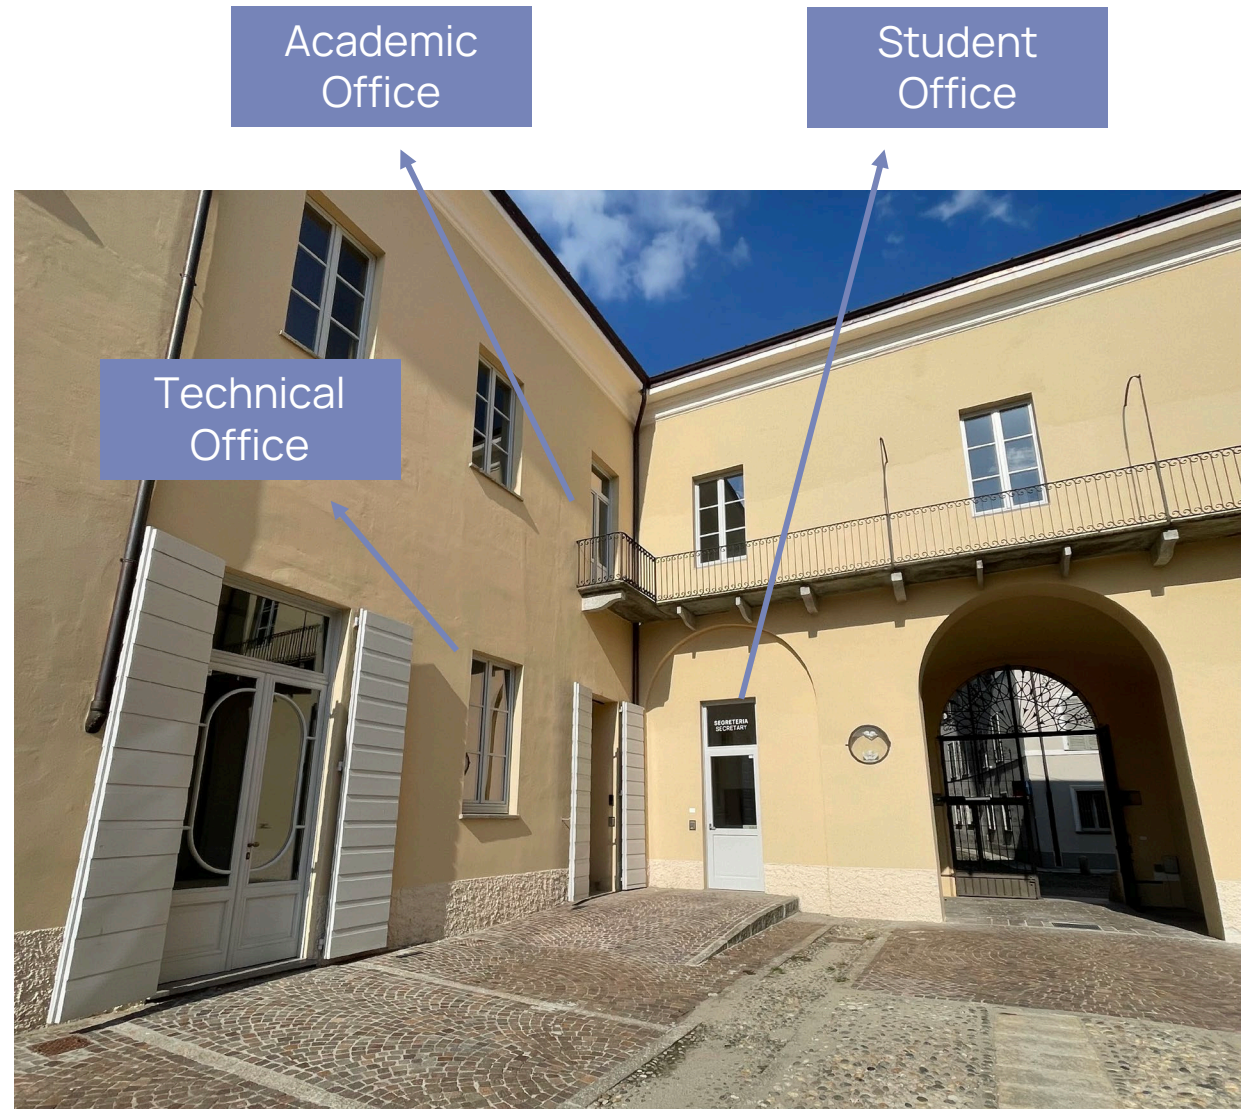

CR01 | Offices

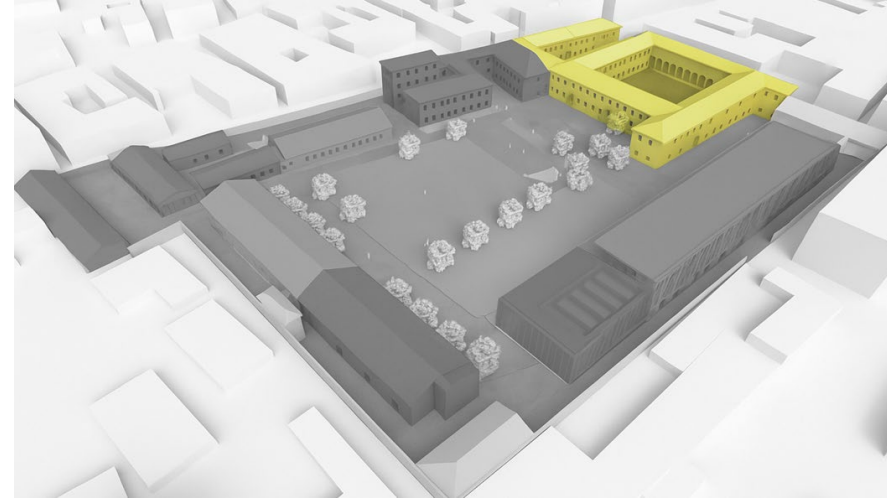

The Student Office and the Technical, Logistics and ICT Office are on the ground floor.

The Academic Office is on the first floor.

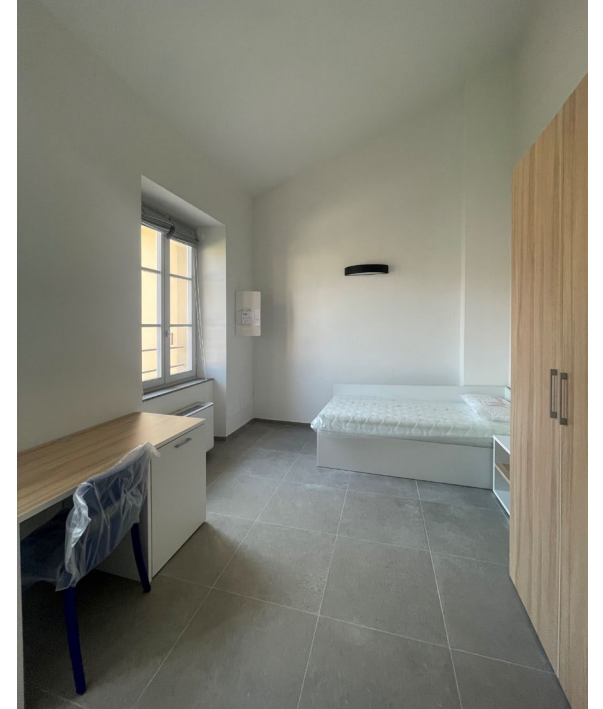

CR02 I “Ada Byron” Residence

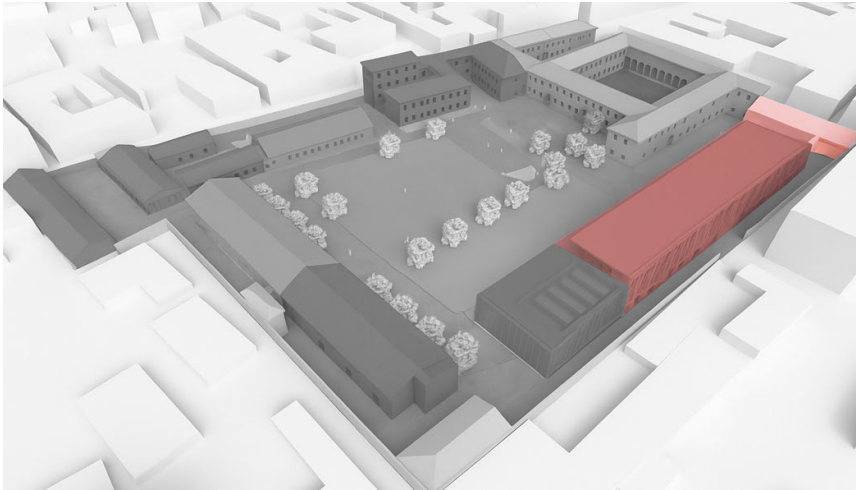

The Ada Byron Residence is located in the former cloister of the Monastery of Santa Maria Annunciata and can host up to 143 beds, divided into single, double and accessible rooms.

CR02 I “Ada Byron” Residence

CR03 and CR04 | Teaching classrooms

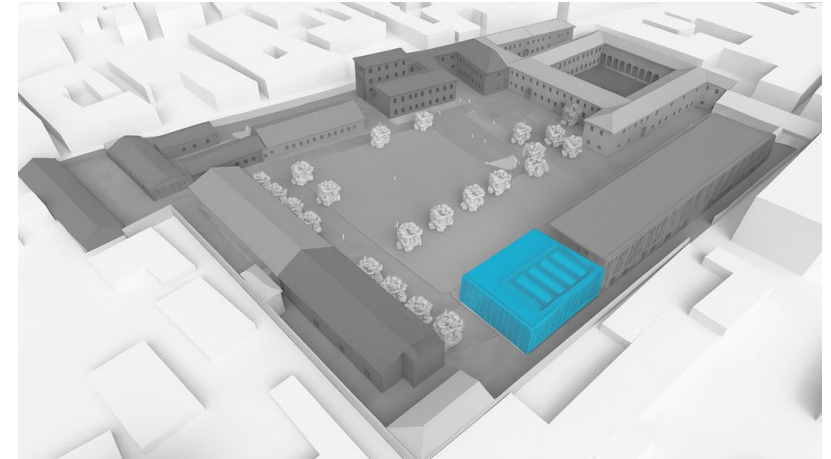

The building extends over **3 floors** and houses **16 classrooms** technologically equipped, with capacities ranging **from 30 to 250 seats**.

CR03 and CR04 | Teaching classrooms

CR04 I “Maffezzoni” Lecture Hall

An auditorium with **250 seats**, equipped with **comfortable seats**, **ledwall** and a **professional audio system**.

A modern and functional environment, ideal for hosting **conferences** and **events** of high quality.

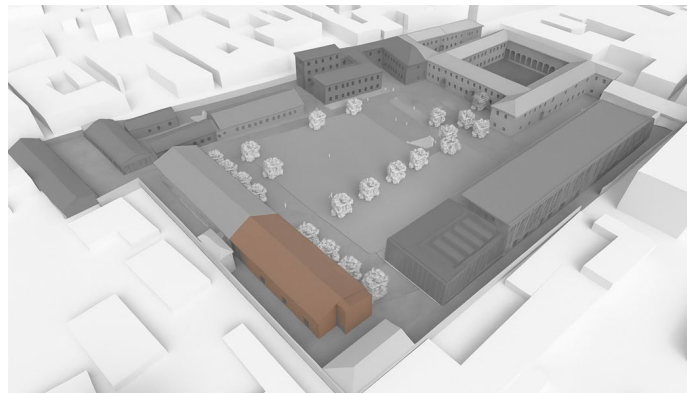

CR04 | “Maffezzoni” Lecture Hall

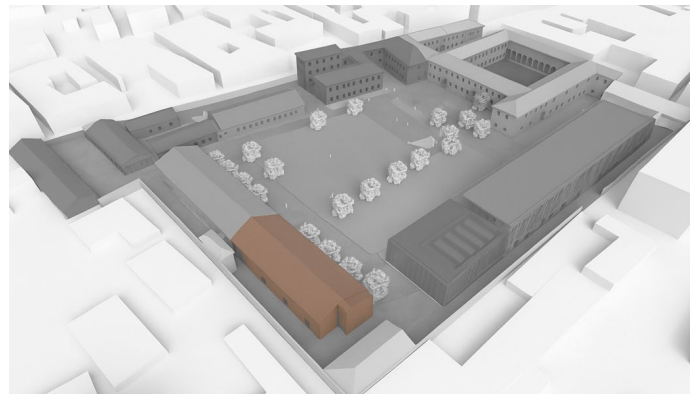

CR06 | Library

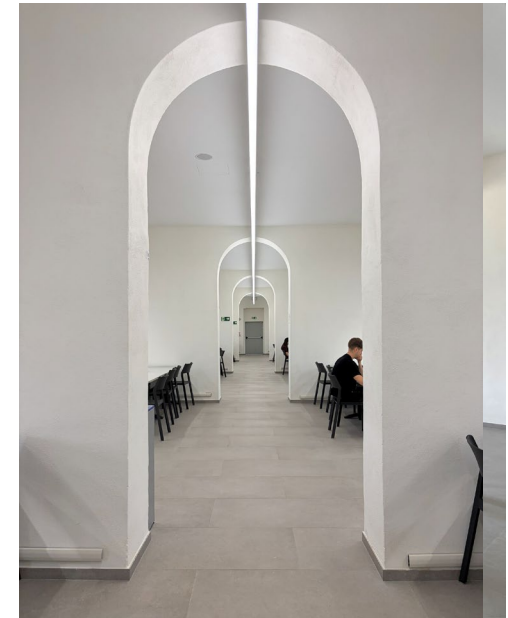

The library is a reference point for students: a large space with **all course textbooks**, areas dedicated to **individual and collaborative study** and, at the entrance, a **relaxation area** with a hydroponic wall to promote **well-being** and **concentration**.

CR06 | Study rooms

The study rooms in building **CR06 first floor** are open Monday to Saturday from 8:00 AM to 7:30 PM and Sunday from 10:00 AM to 7:30 PM

CR08 to CR011 | Research and innovation Laboratory research and innovation

The Cremona Campus is not only a place of **education**: research and innovation activities also take place here **research and innovation activities** in **various fields**.

Discover the entities that contribute to developing new knowledge, technologies and solutions for the local area and society.

FabElab
(Rozzi Laboratory -
Bioenergy Factory)

ROSETEA Laboratory

Sound and Music
Computing Lab

Industry 5.0 Laboratory

CR08 and CR09 | Research Laboratory on Musical Acoustics

The laboratory studies **sound, musical acoustics and digital technologies**, with particular focus on the violin-making tradition of Cremona.

Its activities help understand and assess the **physical and acoustic characteristics of musical instruments** and to develop **new technologies** in the audio field.

CR10 | Laboratorio ROSETEA (RObotic SENSors Technologies for Environment and Agriculture)

The laboratory develops **robotic technologies** and **innovative systems** to make agriculture and food production increasingly **sustainable** and **efficient**.

Research activities include **robots and agricultural machinery**, **drones**, **autonomous vehicles** and **automation systems**.

CR11 | FabElab (Laboratory “Rozzi” - Bioenergy Factory)

The laboratory carries out research in the field of **bioenergy**, focusing in particular on the production of **biogas** and **biomethane** and energy recovery from **organic waste**.

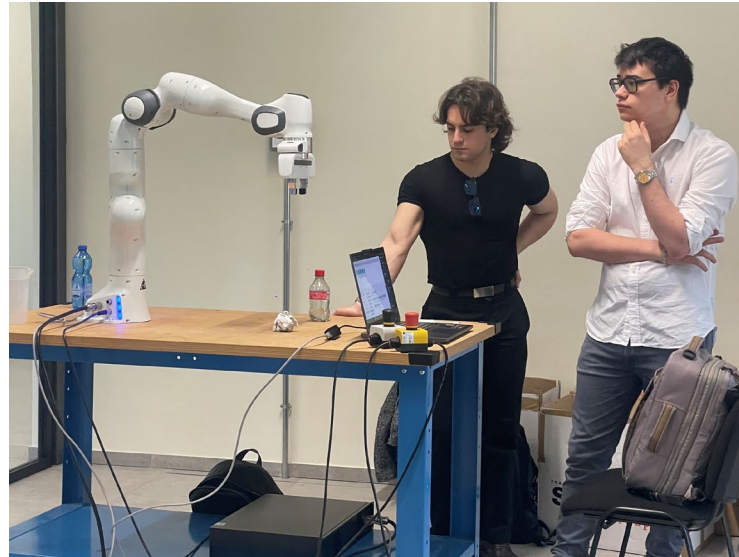

Thanks to specialized instruments and analyses, it represents an important meeting point between **research, innovation and knowledge transfer to the local area**.

CR01 | Industry 5.0 Laboratory

An environment dedicated to the study and development of **innovative and intelligent production systems**.

Through machinery that reproduces real industrial lines, it is possible to experiment with **machine-to-machine communication, process digitization** and **production monitoring**.

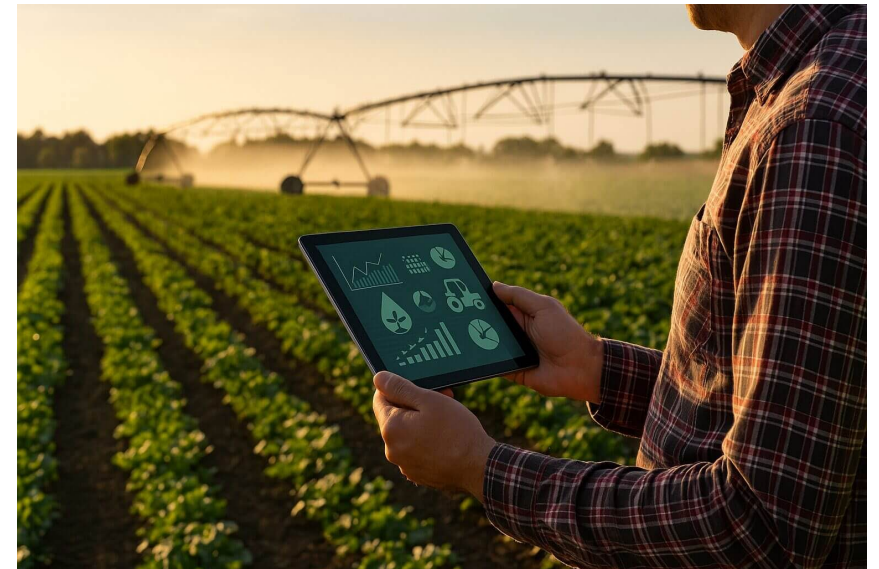

CR01 | Smart AgriFood

It studies digital innovations in the **agricultural and agri-food supply chain**, from **Agriculture 4.0** to **digital food traceability**.

The Observatories study **digital transformation in Italy**, analyzing **technologies, innovations and new business models**.

The presence of the research group on Campus strengthens the **link between Cremona and Politecnico's research activities**, especially in the field of Management Engineering.

Useful services and information

03

Online Services

Access to your reserved area using **Person Code and Password + Second Factor** or via **SPID/CIE**

From here you can carry out all **operations useful for your academic career**, for example:

- entering or changing your study plan;
- registering for exams and graduation sessions;
- paying tuition fees;
- entering your ISEE value;
- requesting certificates and self-certifications;
- checking class timetables;
- applying for DSU, 200-hour collaborations, Erasmus, scholarships and graduation awards calls;
- checking webmail;
- requesting a duplicate university card;
- booking an in-person or remote appointment with the Student Office.

Study Plan

What is it?

It is **the list of courses** that make up the degree path.

It includes a minimum of **30 CFU** up to a maximum of **80 CFU**.

The number of CFU credits entered in the Study Plan affects the amount of **tuition fees**.

The study plan can be **recommended** or **autonomous**.

When is it submitted?

Every year, by the indicated **deadline**.

Late submission entails a 100 euro late fee.

Changing the study plan at the beginning of the second semester is optional.

The first year of the Bachelor's Degree is an exception: in this case, the study plan is entered automatically, except for students with a previous academic career.

Class timetable and rooms

You can find it:

- on the **website homepage** of Politecnico di Milano www.polimi.it at the bottom of the page, under Resources > Class timetable
- in **Online Services** > Class timetable
- in the **Online Student Noticeboard** <https://bacheca.cremona.polimi.it/> where the detailed monthly class timetable will be published and any changes
- on **Channel Webeep** Polimi <https://webeep.polimi.it/> where lecturers will upload materials, information on the various courses and course communications.

General Academic Calendar

<https://www.polimi.it/studenti/calendari-e-scadenze>

Detailed Academic Calendar

<https://www.ingindinf.polimi.it/studenti/calendario-accademico>

Paid student collaborations

At the beginning of each semester, the University publishes specific calls to assign students **part-time collaboration assignments** consisting of temporary and occasional support activities for university services, including tutoring.

The minimum hourly pay differs according to both the type of activity performed and the type of student.

In particular, for students enrolled in a **Bachelor's Degree Programme** the following rates apply:

- **12,00 €/ora** for collaborations supporting administrative services;
- **14,00 €/ora** for collaborations supporting teaching.

For students enrolled in a **Master's Degree Programme**, the pay will be:

- **13,00 €/ora** for collaborations supporting administrative services;
- **16,00 €/ora** for collaborations supporting teaching.

The remuneration is exempt from income tax (I.R.P.E.F.) and regional tax on productive activities (I.R.A.P.).

One or more assignments may be granted, up to a maximum of 200 hours per calendar year.

Other interesting opportunities for you...

International mobility

At Politecnico di Milano, international mobility is a real and accessible opportunity. With over 600 partner universities worldwide and more than 100 double-degree agreements, you can build a truly global educational path.

- study period under Erasmus, extra-EU agreements or special programmes
- internship work at companies or university laboratories
- period (year, semester or half-semester) to prepare a thesis
- double degrees

Passion in Action

A set of courses and teaching activities that Politecnico di Milano offers freely to its students, to develop transversal skills, soft skills and interpersonal abilities, as well as enrich their personal and professional path.

The skills acquired are officially recognized with a mention in the **Diploma Supplement**.

Hydroponic wall designed during the course PiA «**Human-nature synergies for sustainability: a laboratory for prototyping a hydroponic system**».

Support and listening services

- **Multi Chance Poli Team**

<https://www.polimi.it/campus-e-servizi/pari-opportunita-e-inclusione/disabilita-e-dsa>

Service for students with disabilities and learning difficulties.

- **PoliPsi**

<https://www.polimi.it/campus-e-servizi/benessere-psicologico>

Counselling, psychological support and psychotherapy service for students.

- **Tutoring**

<https://www.ingindinf.polimi.it/studenti/tutorato>

Activities designed to guide and assist students during their studies, removing obstacles to successful attendance of courses.

Services available to students on Campus

PERSONAL LOCKERS

Lockers available to leave books or personal belongings.

*At the moment the service is not available, but it will be restored soon.

BICYCLE RACKS

Bicycle racks are available in several areas of the campus where you can leave your bike safely.

PHOTOCOPYING SERVICE

A photocopier is available to students on the first floor of building CR04.

*For the photocopy card, contact the Academic Office.

WI-FI NETWORK

The Campus is fully covered by a Wi-Fi network that can be accessed with the credentials issued by Politecnico di Milano.

TABLE TENNIS AND TABLE FOOTBALL

Between classes, you can take a break by playing ping pong or table football.

*You can find everything you need to play ping pong at the Reception Desk.

BREAK AREA

For your lunches or snacks, you can use the dining area in building CR07: it is equipped with a microwave, air fryer, toaster, rice cooker and electric oven to heat or cook your meals comfortably.
